-----  
What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is the AP freedom triple bay enclosure?

The AP Freedom Triple Bay enclosure provides expanded multi-equipment capacity with three independent bays, robust environmental protection, and optimized airflow. Designed for telecom, broadband, and edge processing, it supports scalable configurations, organized routing, and secure outdoor infrastructure growth.

Why do you need a telecom enclosure?

NEMA developed scrupulous testing procedures to ensure these telecom enclosures offer enhanced protection from criminal elements and extreme weather conditions such as snow and ice, driving rain, wind-blown debris, and heat. At ArmorLogix, we have the products you need to protect and support all of your telecom operations.

What is included in a NEMA 3 enclosure?

Sunshade for protection against UV rays and excess heat. Vents on the door and sides for further heat dissemination. Note that vents are only available with NEMA 3 enclosures. Mylar insulation for moisture, temperature, and chemical resistance.
