What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is an outdoor Telecom shelter?

Outdoor telecom shelters address various communication housing needs, from quick set up time to weather protection. Customer adapted shelter solutions serve a range of telecom applications from incoming AC to complete solutions for different sites in the network.

What is ultra telecommunications?

ULTRA is our stainless steel NEMA 4 IP66 telecommunications central for telco equipment backup, with a capacity of up to 20 fiber optic trunks. Our mini-shelter is designed to protect your telecom equipment from humidity, dust, extreme temperatures and overheating.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.
