What should you not do with a solar module?

Do not drill holes in the frame or glass of the module. Do not treat back sheet and front surface of the module with paint and adhesives. Do not artificially concentrate light on the module.

Can you carry a solar module alone?

Do not carry a module alone; always use two people to lift and carry. The LONGi team of industry veterans and experts is excited to partner with you for success from arrival to installation with LONGi's PV solar modules.

How do I know if my PV modules have been shipped?

Before you unpack your modules, check the shipping label to ensure you received the right modules. Once you unpack your modules, check the module frame serial number and model label against the shipping label. The serial number is the unique identifier of each PV module.

What to do if a solar module is damaged?

Avoid application of excessive bending or twisting forces to the module. If at all any damaged modules are received, Customers are requested to intimate Citizen Solar (along with support photographs of damaged pallets-on vehicle) for Insurance claim purpose on same day of receipt of container.
