-----  
Will Victorian Government approve a battery energy storage system?

The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of projects to support its renewable energy ambitions.

What is Victoria's largest-ever battery storage project?

The Victorian Government has approved the state's largest-ever battery storage project - a one-gigawatt facility that it says will deliver cleaner, cheaper, and more reliable renewable energy for hundreds of thousands of homes. Pacific Green's Portland Energy Park has been fast-tracked through the Government's Development Facilitation Program.

What is Australia's second-largest battery energy storage system?

Victoria's second-largest battery energy storage system has officially commenced operations, marking a significant milestone in Australia's transition to renewable energy. The 200 MW /400 MWh Rangebank Battery Energy Storage System (BESS) was inaugurated on December 3, 2024, in Cranbourne, Melbourne.

Does Shell Energy own a battery in Victoria?

Shell Energy has secured 100 per cent of the battery's offtake through a 20-year agreement, marking its first grid-scale battery investment in Victoria and Shell's first direct equity investment in a utility-scale BESS globally. The Rangebank BESS is one of 12 utility-scale battery projects currently under construction or commissioning in Victoria.

Construction will now commence on the four-hour, 350 MW Wooreen energy storage system. Once completed in 2027, the system will be capable of powering 230,000 ...
