Recently, our company, ONESUN, had the honor of hosting a delegation of clients from Vietnam, who conducted an in-depth inspection and exchange regarding our products. ...

Lithium batteries offer multiple advantages: high energy density, excellent charge-discharge performance, and extended battery life. However, their high cost and the nascent ...

There are many types of energy storage technology with different applications in modern energy systems. This paper provides an up-to-date review of these storage ...

Vietnam is seeking greater energy efficiency, improved transmission, and alternative fuels for its energy storage sector.

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS ...

Battery Energy Storage Systems (BESS) offer a transformative opportunity to modernize the energy sector. BESS enhances grid stability and facilitates renewable energy ...

Vietnam can leverage domestic solar manufacturing to meet domestic demand, implement direct power purchase agreements ...

This article explores the growing demand for high-efficiency energy storage equipment in renewable energy integration, industrial applications, and smart grid development.

The Institute of Energy (under the Ministry of Industry and Trade) presented Viet Nam's policy directions,

highlighting the role of energy storage in demand response and ...

The partnership will establish a full-chain energy application ecosystem, covering products, localized services, and market resources, to deliver safe, efficient, and sustainable ...

With advanced technologies such as lithium-ion batteries, solar energy storage, and AI-powered cloud-integrated BESS systems, GG Power empowers organizations, enterprises, and ...

Abstract The global transition to sustainable energy highlights the critical need for renewable energy development, particularly in emerging economies like Vietnam. This study evaluates ...

Goldwind launches new generation modular liquid cooling BESS (Battery Energy Storage System) system for utility-scale renewable ...

Discover cutting-edge bitumen heating storage tanks and rubber bitumen equipment designed for efficient, eco-friendly road construction in Vietnam. Our advanced ...

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS deployment.

With advanced technologies such as lithium-ion batteries, solar energy storage, and AI-powered cloud-integrated BESS systems, GG Power ...

Prime Minister's Decision on the list of equipment and means required to comply with Vietnam regulation on energy efficiency and its ...

This study addresses the need to assess and identify viable metal-ion battery alternatives to Li-ion batteries, focusing on the rapidly ...
