What is a solar inverter product warranty?

Also known as a materials warranty, a solar inverter product warranty covers the integrity of the equipment itself. If your solar inverter has a defect or mechanical issue, if it breaks, or experiences unreasonable wear and tear, that's where your product warranty comes into play.

What is a PVI 50/60tl inverter?

The PVI 50/60TL inverters are the most reliable, efficient and cost effective in their class. They come standard with AC and DC disconnects, three MPPTs, a 15-position string combiner, remote diagnostics, remote firmware upgrades and various protection features.

Does a warranty cover a replacement inverter?

The top inverter manufacturers, such as Enphase, SolarEdge, and SMA, cover shipping costs for replacement equipment as part of their warranty agreement, so long as the "claim is justified," meaning they've confirmed it's a reasonable claim, and you followed the proper return merchandise authorization (RMA) process.

Do string inverters have extended warranty?

Extended warranty offerings are more common with string inverters than microinverters, likely because the latter's standard offering already spans two and a half decades. The inverter you choose will ultimately depend on multiple factors, including its warranty.

Nova's cabinet / bulkhead mounted Rugged Inverter Systems are designed and built for heavy industry and military applications, including those that require compliance to MIL-STD-1275, ...
