Where can I find the best marine-grade power inverters?

Here at Hodges, we carry the very best marine-grade power inverters on the market. Hodges Marine brings you a premium selection from top brands like Mastervolt, Magnum, Samlex & more. AC & DC converters for boat use, all at low prices.

Who needs a marine power inverter?

Marine inverters are used to convert 12-volt DC battery power into 120-volts of AC power, which allows appliances and other tools to run when there is no shore power or a generator. Inverters come in various sizes with all sorts of different features.

What is a shore based inverter?

If you're using shore-based power the inverter will shift to battery power and provide continuous power if the main power is cut off. This is a premium unit designed to meet the power needs of discriminating sailors with full-featured boats.

What is a portable inverter & a marine battery isolator?

Compact Portable Inverters: Ideal for temporary AC power needs, these portable inverters offer flexibility without compromising on performance. Marine Battery Isolators: These isolators help prevent galvanic corrosion and excessive discharge, extending the lifespan of your batteries and ensuring optimal performance over time.
