Who owns Wellington Battery energy storage system?

AMPYR Australia has acquired Shell Energy Australia's 50 per cent stake in the 300 MW /600 MWh Wellington battery energy storage system (BESS) stage one project in New South Wales. AMPYR already owns Wellington BESS stage two (100 MW /400 MWh), so now owns 100 per cent of the total 1,000 MWh project.

What is the Wellington Battery energy storage system (BESS)?

The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

Will Wellington Bess be the largest battery storage project in NSW?

Once operational, it will have a capacity of 1,000-megawatt hours (MWh) of green power. This will make Wellington BESS one of the largest battery storage projects in NSW. Wellington is being constructed at 6773 and 6909 Goolma Road, Wuuluman NSW 2820.

Which energy storage products will Fluence provide for the Wellington Bess stage 1?

Fluence will provide its full suite of energy storage products, including Gridstack and Mosaic, for the Wellington BESS Stage 1. Image: Fluence. Renewable energy developer Ampyr Australia has reached financial close on its 300MW/600MWh Wellington battery energy storage system (BESS) Stage 1 in New South Wales.

Other teams may hold different views and make different investment decisions. The value of your investment may become worth more or less than at the time of original investment. ... BEVs, ...

AMPYR Australia (AMPYR) today announced it has achieved financial close of its 300 MW / 600 MWh Wellington Stage 1 battery energy storage ...

Battery storage developer led by ISP lead Alex Wonhas seeks investors in first stage of planned gigawatt scale battery, as it also ...

Funding deal means Akaysha can start building huge four-hour battery, which will be one of the biggest in Australia.

The project involves the development of the 235 MWp Maryvale Solar facility, accompanied by a 270 MWh battery energy storage system (BESS), located near the town of ...

Renewable energy developer Ampyr Australia has reached financial close on its 300MW/600MWh Wellington battery energy storage ...

Rooftop solar raced past 4 million installations and continues to drive Australia's clean energy transition, while new investment in utility scale generation and storage combined ...
