Are solar panel imports from Turkey cost-effective?

Solar panel imports from Turkey may or may not be cost-effective. The cost of importation is dependent on the material composition. Although Turkey manufactures solar panels using its own internal resources, not all solar panel components are manufactured locally.

How many solar panels did Turkey import in 2023?

According to Volza's Turkey Import data, Turkey imported 2,896 shipments of Solar Panel during Mar 2023 to Feb 2024 (TTM). These imports were supplied by 463 foreign exporters to 496 Turkey buyers, marking a growth rate of 9% compared to the preceding twelve months. Within this period, in Feb 2024 alone, Turkey imported 123 Solar Panel shipments.

How many solar panel buyers are there in Turkey?

Within our Volza database, we have detailed information on more than 36,606 active Solar Panel Buyers worldwide, which includes 1,007 Solar Panel Buyers based in Turkey. To assist you in finding the ideal business partners, you can utilize Volza's advanced feature that examines billions of shipping invoices through over 20 parameters.

What types of solar panels are made in Turkey?

Turkish solar panel manufacturers make a variety of solar panels, notably monocrystalline, polycrystalline, and thin-film panels. They also manufacture mounting systems and other solar panel installation components. Are Turkish solar panels suitable for both residential and commercial use?

Explore Türkiye's role in the global renewable energy market, focusing on solar panels, wind turbines, and battery systems.

It is expected that the supply and demand of silicon materials will remain unbalanced in the first half of 2022,
