Why should you choose a IP54 solar shell?

The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc. Integrated Solar+ESS design, suitable for access of PV. New energy vehicles use PV clean electricity as priority.

What are the advantages of the IP54 waterproof shell?

The system configuration is modular, support multi-machine parallel, plug and play, easy to install and maintenance. The IP54 waterproof shell makes it perfect to adapt to a variety of indoor or outdoor industrial and commercial application scenarios, such as photovoltaic charging stations, industrial parks, farms, etc.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

Expandable 5-40KWH LiFePO4 battery rack with 6000+ cycles, intelligent BMS, and multi-protection safety features. Compatible with top solar inverters (Deye, Growatt, SMA, etc.), ...

Built to handle the elements, the DuraRack enclosure is IP54-rated for water and dust resistance -- perfect for both indoor utility rooms and exposed outdoor environments.

The cabinets are made of aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery ...

The shockproof, IP54-rated exterior feels durable enough for outdoor adventures. It's surprisingly lightweight for its size--under 28 pounds--making it easier to move around ...
