-----  
Are Chinese solar power inverters connected to critical infrastructure grids?

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected to critical infrastructure grids across the country.

Is there a secret radio in a solar inverter?

Every solar panel and battery connected to the U.S. energy grid relies on a device few people ever consider: the power inverter. In May of 2025, U.S. experts found undocumented communication modules and secret radios embedded in some Chinese-manufactured solar inverters and battery systems.

Are Chinese solar power inverters Rogue?

In a plot twist worthy of a techno-thriller, U.S. energy officials have uncovered rogue communication devices embedded within Chinese-manufactured solar power inverters.

Are Chinese solar inverters hiding secret radios?

In May of 2025, U.S. experts found undocumented communication modules and secret radios embedded in some Chinese-manufactured solar inverters and battery systems. Not listed in product documentation, these shadow components create hidden backdoors that can circumvent utility firewalls and allow remote access to the devices.

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within ...

Among the six companies targeted: CATL, BYD, Envision Energy, and Gotion High-tech. Utilities are already bracing for a broader crackdown. Some, like Florida Power & Light Company, are ...
