What is the best portable power bank?

1. CUKTECH 30 Power Bank The CUKTECH 30 is that perfect middle ground between a portable power bank and a mini power station. It's got a massive 40,000 mAh of capacity, which is more than enough for charging literally all your devices many times over on long haul flights.

Which power bank should I buy?

The Nimble Champ is our top recommendation for most folks, but we have all sorts of alternatives here. Read our Best MagSafe Power Banks guide for magnetic wireless chargers, and our Best Portable Power Stations guide for more power. Updated November 2025: We've added a power bank from EcoFlow, and an honorable mention for a new Anker power bank.

Is the nb10000 a good battery power bank?

Sure, the battery power indicator light isn't the most precise, but that's a nit-picky criticism in a compact power bank. Ultimately, the NB10000 provides reliable portable power for charging small devices.

Why should you use a power bank?

Charging Speed: Some power banks offer fast charging technologies like Power Delivery (PD) or Quick Charge (QC), which can significantly reduce the time it takes to top up your devices. This is particularly useful when you have limited time to charge or need a quick boost before heading out on a hike.

Explore power banks and portable chargers here with Anker, guaranteeing that you remain powered and connected, wherever your journey takes you.

Selecting the best power bank can minimise technological fuff on the hills and be the difference between safety and an escalating emergency.
